**AS TO QUALITY**

Our Customers well know the kind of stock we have got for them during the past 16 years.

Intending purchasers may easily be convinced by a trial order. How else can one determine, when every dealer claims he has the only large bulbs imported? Do not despise the small list. Owing to immense spring business we have not had time to prepare one more complete.

## HYACINTHS — Extra Selected

These 24 kinds are the cream of more than three hundred varieties grown. Being of the best forcing varieties and strictly first-size, they are usually sent out as Exhibition Sizes, Special Collections, etc. The Single Hyacinths have more meritorious habits than the double. Guaranteed best quality; equal to any imported. In many varieties four bulbs will weigh a pound. 50 at 100 rate.

The "Second Size" are especially adapted for forcing or bedding. They are sure to produce large and vigorous spikes of bloom.
